PRESIDENT'S MESSAGE

This year, 2023 marks over 3 years that we have been in the global pandemic. Covid-19 touched the young, the elderly and everyone in between.

In terms of Hospice and Palliative Care, the major impact was on the emotional distress of loved ones as visitor restrictions were necessary to curb the virus.

But we worked through it and thankfully some of the restrictions in health care have been lifted. Of course staffing is a big concern but with recruitment efforts ramped up, hopefully we will start to see results in that area as well.

The Pandemic opened our eyes to new ways of doing things – we held our palliative care conference via zoom last year – with positive results.

PRESIDENT'S MESSAGE CONT'D

Thankfully we are able to hold our Palliative Care conference in person this year where we can meet and network with each other face to face.

This upcoming year we will focus on reviewing, revising and moving our Strategic Plan forward.

This ends my term as President of NBHPCA. I would like to thank the NBHPCA Executive and Board membership for working with me during my term and as well for their support.

Together we will strive to enhance quality end-of-life care for individuals and families living with life-threatening illness in N.B.

Thank you for your work and continued support.

Respectfully submitted by Lana Hebert RN, BN, President NBHPCA
